## Introducing Gigabit Fiber Internet

It's not cable. It is fiber internet from one of Colorado's largest independent local providers with speeds up to one gigabit up and down. FORETHOUGHT.net Gigabit Fiber delivers more than 100 times faster speeds than today's broadband.

Sign up today to get your location on the list for gigabit fiber from [fiber.FORETHOUGHT.net](http://fiber.FORETHOUGHT.net) and experience 100x the speed and possibilities.

Established in 1995, FORETHOUGHT.net is now one of Colorado's largest independent locally owned internet service provider. With offices in Denver, Durango and Grand Junction, FORETHOUGHT.net aims to reduce the digital divide and make Colorado one of the top in the nation.
